Colloqurium organizing committee:

Presidency of the organizing committee:

Dr. DJAKBOUBI Hamza/ Dr. BENKAIDALI Mohamed Lamine.

Members of the organizing committee:

Teachers :

BAKI Widad -Univ-Boumerdes. AGOUN Abdelghani. Univ-Boumerdes, BOUROUCHE Salima, Univ-Boumerdes.- BRELLAH. Amel. Univ-Boumerdes- YAHYOUCHE Souad, Univ-Boumerdes. AIT CHALAL Ourdia, Univ-Boumerdes. M. BENMEDJBEUR-BOUADJNEK Samir, Univ-Boumerdes. KERIA Mohamed, Univ-Boumerdes. BERINI Abderahmen, Univ.Boumerdes.

Doctoral students:

KACEM Saliha, Univ-Boumerdes. MERAR Mohamed Ismail, Univ-Boumerdes. HADJ ACHOUR Rania, Univ-Boumerdes. BELALTA Abdelmalek, Univ-Boumerdes.

Technical committee of the colloqurium:

* Scientific activities department of the Faculty of Law and Political Sciences - Boudouaou.
* ESSANHOURI scientific and cultural club of the Private Law department

COLLOQUIUM PREAMBLE:

Agricultural land, as a permanent resource that cannot be squandered through inevitable depletion, unlike energy wealth, holds a strategic position in accelerating economic growth and achieving sustainable development and food security.

This has caught the attention of international and regional organizations and prompted countries to invest more in the agricultural sector, giving it special attention and developing various strategies to achieve food security. As examples, we can mention Egypt and Sudan, which have achieved successful experiences, particularly in land reclamation to expand their portfolio.

Algeria, on the other hand, is considered an agricultural country par excellence given all its qualifications and capabilities in this field, namely, water, climatic diversity, and land. This invaluable wealth encompasses lands covering an area of **47.47** million hectares exclusively allocated to agriculture, including **5.7** million hectares in private ownership and **2.77** million hectares owned by the state, in addition to endowment lands. Since gaining independence, the Algerian government has sought to promote this crucial sector by enacting a series of specific laws, from Decree No. **63-88** of **18/03/1963** to Executive Decree No. **21-432** of **04/11/2021**, through which numerous agricultural programs have been implemented. However, much like many other countries, Algeria has not achieved food security and remains reliant on the importation of certain widely consumed foodstuffs, such as cereals and milk (ranking third globally in terms of cereal imports). Therefore, the focus of this international colloquium revolves around :

Seek to determine the legal mechanisms adopted for agricultural land investment and the extent of their impact on the economies of countries in achieving their food sovereignty?

COLLOQUIUM OBJECTIVE:

* Understand the various international laws and legislations governing agricultural land and how to invest in them.

* Highlight the contributions of international and regional organizations supporting the agricultural sector.

* Explore the best international practices in agricultural land investment, especially in the enhancement and development of strategic crops.

COLLOQUIUM THEMES:

Theme 1: The legal framework for regulating agricultural land (sources of formation and investment mechanisms).
Theme 2: Financing methods and the role of financial institutions in revitalizing and reinvigorating agricultural land investment.
Theme 3: The role of international and regional organizations in promoting investment in agricultural land.
Theme 4: The impact of climate change on the agricultural sector and the proposed solutions to address it.
Theme 5: Digitalization and modernization of the agricultural sector.
Theme 6: Successful Arab experiences in land reclamation and agricultural development.
Theme 7: disputes related to agricultural land and methods of resolving them

CONDITIONS OF PARTICIPATION :

- The subject of the communication should align with the themes and topics of the conference.
- The communication should be individual with an original topic, not having been previously published or presented in scientific forums, and should not originate from a thesis or dissertation.
- Communications should be submitted in Arabic, English, or French, provided that the number of pages is not less than ten (10) pages and not more than twenty (20) pages, including the list of references.
- The communication must be accompanied by two abstracts in Arabic and English.
- The communication should be formatted using Microsoft Word in accordance with accepted scientific and methodological principles and scientific integrity.
- Submit the entire communication, formatted in Arabic using Simplified Arabic font size 14 for the body text and size 12 for the margins, or in a foreign language using Times New Roman font size 12 for the body text and size 10 for the margins. Margins should be automatically set on the same page.
- Adjust the page layout with a 2 cm margin on the right and left, as well as at the top and bottom of the page, and leave a 1 cm space between lines.
- The communication must be accompanied by participant information: their full name, academic rank, affiliated institution, email, and phone number, as well as comprehensive information about the communication (theme and title).
- Include the list of references at the end of the communication.

IMPORTANT APPOINTMENTS:

-Communications must be submitted in their entirety, along with complete participant information, before the deadline of September **20, 2024.**

-Notification of acceptance of the communications will be provided by October **19, 2024.**

-International conference date: Tuesday, October **22, 2024.**

CONTACT :

Communications must be sent to one of the two following email addresses:

b.langar@univ-boumerdes.dz
g.beggar@univ-boumerdes.dz
